

Learning Technology Needs Assessment

Because learning technologies are a big investment for your organization, **complete a learning technology needs assessment** to get answers to these questions.

| Question | Response |
|---|----------|
| What types of multimedia and assets do we plan to include? | |
| Which technologies will be used for the design and development of the learning experiences? | |
| How will these technologies and content be maintained? | |
| How secure are the technologies and the learning output produced by them? | |
| Do we have the necessary IT infrastructure to support these technologies and their output? | |
| Where do these learning technologies fit in our current learning ecosystem? | |
| What expertise do we need to bring in-house? | |

Asking the Right Questions

| Question | Response |
|--|----------|
| What expertise should we try to outsource to a vendor? | |
| How will the learning technology be deployed? | |
